NEWS CONDENSED.

Concise Record of the Week.

EASTERN.

The R. L. Spencer Novelty Company of Wallingford, Conn., failed for about \$150,000.

Mr. Andrew Carnegie proposes to increase his donation to the Pittsburgh free-library fund to \$500,000, provided the city will raise an equal amount and maintain the institution by public taxation.

In a fit of jealousy Norman Lounsbury, aged twenty-eight, a farmer living near Ossego, N. Y., shot his wife, aged sixteen, and her relative, Horace Payson, thirty-five years old, and then killed himself. Mrs. Lounsbury and Payson died within an hour.

A storm in the mountains on the Pennsylvania Road slew several large trees upon the track near Conemaugh. The result was the wrecking of a long freight-train, by which a conductor, engineer, and fireman were killed. Twenty-five cars were broken into fragments.

Dr. Frederick A. Palmer, aged 73, a well-known homoeopathic physician at Boston, left his residence with his 4-year-old grandson and took passage on the steamer bound for Portland, Me. During the night the Doctor jumped overboard with the child, but all efforts to recover the bodies proved fruitless.

Gov. Hill's approval of the Arcade Railroad bill forecasts a busy time on Broadway, says a New York dispatch. If the tremendous project is carried out thousands of workmen will be turning up the street this summer, and within three to five years a four-track electric railway will be carrying rapid trains through the Arcade sub-way under an iron wagon-way. It will occupy all the room from curb to curb, and on the two inner tracks express trains will be run at thirty miles an hour, capable of carrying 1,000,000 passengers a day. The route is from the battery in Broadway to the Harlem River, with a branch under Madison Avenue running up Madison Avenue to the Harlem. The completion of the road will occupy 5,000 men for five years.

The Pennsylvania Railroad Company will issue \$40,000,000 additional stock to provide for additional expenditures. This will make the total capital stock about \$98,000,000.

WESTERN.

The Quincy, Missouri and Pacific Railroad was sold at St. Louis to a representative of the bondholders for \$1,000,000.

Under a decree of foreclosure, the Quincy, Missouri and Pacific Road was sold by a special master in Lewis, Mo., to a New York, acting for the first-mortgage bondholders, paid \$1,600,000 for the line.

William Fordyce, of Wabash, Ind., overtook Alf Watkins, a married man, as he was walking with Fordyce's daughter, and cut him dangerously about the head and face. Watkins is likely to die and Fordyce has been placed in jail.

During the recent riots in Chicago, Bohemian anarchists sacked and destroyed a drug-store at the corner of West Eighteenth street and Center avenue. It now develops that nearly a dozen ministers who participated in the looting of the store have fled from drinking poisonings concoctions under the belief that they were swallowing fangle-foot whisky. A half-dozen more are sick unto death, and with small hopes of recovery. It also transpires that several of the participants in the riots were buried in the Bohemian Cemetery without permits, which leads to the conclusion that the policemen fired their pistols with better aim and more deadly effect than was at first supposed. The owner of the building filed a bill to set aside the lease granted to the backers of the paper on the ground that the contract has been broken by the storage of explosives in the office, and the lease was canceled. At the meeting of the Chicago Methodist ministers resolutions were passed denouncing the rioters. There is a decided improvement in the labor situation at Cincinnati, and no violence is now anticipated.

The superintendent of the Assay Office at Helena reports that Montana last year produced \$23,000,000 in precious metals, the amount of gold being \$5,000,000.

François T. Ford, Attorney General of Indiana, having developed an insatiable jealousy of his wife, has been sent to the asylum. He recently threatened to kill Dr. L. A. Constock, who therupon caused an inquiry into Mr. Ford's mental condition.

The deputies who did the shooting at East St. Louis, in April, have been removed from East St. Louis to the Ballyville (Ill.) jail. The transfer was quietly effected.

An Indiana, Bloomington and Western passenger train dashed into a washed-out culvert near Newcastle, Ind. The engineer, fireman, and passenger were killed, and all the other passengers and train employees more or less bruised.

Western railway managers seem to agree that the success of the interstate commerce bill in its present shape would be a calamity, for the reason that the interests of the West have been sacrificed to those of the East.

SOUTHERN.

At Baltimore the grain commission house of Tyson Bros. made an assignment. Their liabilities are estimated at about \$20,000. The firm had extensive connections in Europe and did a heavy shipping business.

POLITICAL.

The Republican members of the Ohio Senate, by a viva voce vote, declared vacant the seats of the absent Cincinnati Democrats, and seated the four Republican claimants from Hamilton County.

In the Ohio Senate on Monday, the 10th inst., Mr. Van Cleef (Democrat) moved for a correction of the journal with reference to the seating of the four Republicans from Hamilton County, but the motion was ruled out of order. He then desired to enter a protest, but the Chair refused to receive it. During a recess of the Senate the journal was stolen, resulting in some excitement. Clark Vallandigham, however, prepared a new record of the day's proceedings, which was certified by the Secretary of State. During the evening the stolen journal was returned to the State Department.

The Ohio Legislature has passed a liquor tax bill which is a re-enactment of the Scott law, and which goes into effect from date.

N. D. Wallace, President of the New Orleans Produce Exchange, has been nominated by the Democrats of the Second Louisiana District for Congress in place of J. O. Beard, deceased.

WASHINGTON.

Companies have been organized in Indiana, with ample capital to develop gas-wells in Wells, Jay, and Delaware Counties.

George W. Julian, Surveyor General of New Mexico, has sent to the Commissioner of the General Land Office a complaint against the inaction of Congress on opinions as to three fraudulent grants which keep three hundred thousand acres from settlement.

The May crop report of the Depart-

ment of Agriculture indicates an improvement during April of two points in wheat, with the general average of condition at 65. The season has been favorable and the crop is more advanced than usual.

Representative Morrow the other day received a monitory petition from the Knights of Labor of California. It is over two thousand feet long and contains the names of over ten thousand persons. Every State, county, and municipal officer, and every Knight of Labor of California, has signed the petition.

Every male adult in many of the counties of the State has put his name to it. It lays upon the part of Congress, either by appropriate legislation or by a change in the present treaty with China, as may be necessary, to forever prohibit the further immigration of Chinese to the United States.

At 11 p.m. the Bavarian Ministry has dismissed the warship Falke to the North Sea to watch the operations of English fishermen.

Snowstorms are reported in the north of Ireland and Scotland.

German papers express satisfaction with the arrest of Hierl Most and other anarchist, and express the hope that they will be severely punished.

Schumacher & Schull, rice merchants, of London, failed with liabilities of \$300,000 and no assets.

A terrible hurricane swept across the middle of Spain. In Madrid alone seventy persons are known to have been instantly killed and 200 others seriously injured.

In the event of war between Turkey and Greece it is probable that Russia will intervene as the ally of Greece. Such intervention would probably be the commencement of serious complications throughout Europe, Germany, Austria, England, Prussia, and Italy have notified Greece that a blockade of her ports has been ordered.

Agnes Carroll, a step-daughter of General Robert E. Lee, is to marry an Austrian count.

The Bavarian Ministry has resigned in a body on account of crazy King Ludwig's obstinacy.

The German Government has dispatched the warship Falke to the North Sea to watch the operations of English fishermen.

Snowstorms are reported in the north of Ireland and Scotland.

German papers express satisfaction with the arrest of Hierl Most and other anarchist, and express the hope that they will be severely punished.

LATER NEWS ITEMS.

The miners at Niantic, Ill., struck because the company refused to pay for "horseless" work, the rate for which before the new scale went into operation, was fifty cents per square yard.

The business failures occurring throughout the country for the week numbered for the United States 156 and for Canada 20, as against a total of 162 the week previous.

It has leaked out that the employees of the Pennsylvania Railroad Company are distributing a secret circular with a petition for signatures asking an advance of 10 per cent in wages and also busing themselves to join the Knights of Labor.

The former employees of the lumber yards in Chicago have quite generally returned to work on the old basis of hours and wages, but the leading agitators were not received.

About four hundred men had resigned their duties at Pullman up to Monday last. The carpenters of Milwaukee compromised on a small advance on hourly wages.

Telegrams to Bradstreet's indicate that the industrial agitation in favor of fewer hours' work daily has largely disappeared elsewhere than in Chicago. At New York it has been a practical failure, while at Chicago the attitude of manufacturers is already in a blaze, he leaped up the ladder and jumped in through the window. The fire and smoke soon drove him back, but his master, who appeared at that moment, shouted to him to go in and the people cheered. Whether he understood or not, he again entered the window and, when all hope of his return had been given up, a loud shout announced his arrival. He was terribly burned, and fell before he reached the ground; still holding with wonderful firmness a little babe.

The child did not prove to be greatly harmed; but poor Carlo's injuries were fatal. The brave dog received every care, but he died the next day.—*Life Squier*, in St. Nicholas.

Make Haste to Defend Yourself

If you live in a locality where malaria is prevalent, you will find an expensive and dangerous disease as the most reliable of medical refrigerants.

Hossett's Stomach Bitters. Entirely free from the obnoxious and the most violent of which affect to the mineral alkaloid quinine, it is far more effective, and its effects are not transient, but lasting, unlike those of the drug. There are portions of our land—and more beautiful and more fertile—which at no season of the year are entirely exempt from the material scourge. In such regions Hossett's Stomach Bitters has undergone a continuous test for the past thirty years, with results which have established its reputation beyond all cavil as a remedy for biliousness, fever, and all forms of disease.

Complaints shall not be dismissed because of the absence of direct damage to the complainant, and it is a potent remedy for constipation, dyspepsia, rheumatism and an improved condition of the blood.

The country about Forest, Hardin County, Ohio was swept by a cyclone at an early hour Saturday morning. It created havoc at Dunkirk, wrecking houses, killing four people, and injuring fifteen or twenty. The East-bound express on the Fort Wayne Road ran into a clump of fallen trees, the branches of which, crashing through the car windows, seriously injured twelve passengers, a number of whom were thrown from the Wabash County, Ind. The Wabash River is out of its banks and flooding the country. Timber was leveled and wheat fields were destroyed. The Mayor of Attica, Ind., reports that the storm deprived fifty families of their homes. The Indianapolis Board of Trade sent a cable to the entire railway system, he thought it was carried on by trickery and unfairness, from Mr. Gould down to the lowest subordinate. He said that the employee of the Missouri Pacific Railroad shop tested that not only had the March (1888) agreement been broken but its provisions had in several instances not even been put into effect. Father O'Leary, editor of the *Catholic World*, testifies that he knew many soldiers who were good honest men and church members. He said that the company was doing its utmost to crush the Knights of Labor, using unscrupulous means to accomplish its ends. The cause of the strike he had studied, and thought he knew. The Knights were a society formed to teach its members justice and equity, but looking at the entire railway system, he thought it was carried on by trickery and unfairness, from Mr. Gould down to the lowest subordinate. He said that the employee of the Missouri Pacific Railroad shop tested that not only had the March (1888) agreement been broken but its provisions had in several instances not even been put into effect.
